

Our Guide to being a MASTER....

'Explain it!' to me.

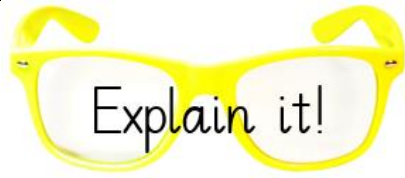

'Convince me!' that you are correct.

'Prove it!' to me.

'Use it!' in another problem.

- * Can you explain the problem to me?
- * What method have you chosen to use, and why have you chosen to use it?
- * How did you reach your answer?

- * How do you know that you are correct?
- * Can you convince me that it is not this answer?

- * Can you prove that you are correct using a different method?
- * Can you check your answer using the inverse operation?
- * Can you represent the same problem in a different way?

- * Can you use the same method to solve a different problem?
- * What prior knowledge can you use to help you solve this problem?
